About Me

Computer Science postgraduate student (MSc CS, Modern College, Pune) with hands-on backend development experience in **Java, Spring Boot, and Spring Security**, gained through a live internship at Gabriel India Ltd.

Background in **Python, SQL, and data engineering** has built ETL pipelines, Medallion/Lakehouse architectures, and AI-powered data applications outside coursework, including **intelligent agents deployed on Google Cloud Run**.

Looking for a trainee role in **software development, data analytics, or data engineering** where I can keep building production-grade systems.

Experience

Gabriel India Ltd May 2026 – July 2026

Software Developer Intern

- Developed and tested a **full-stack web application** using **Java, Spring Boot, Spring Security, MySQL, and Bootstrap**.
- Gained hands-on experience in **backend development**, **database management**, and building **role-based enterprise applications**.
- Collaborated on secure authentication/authorization flows and relational schema design to support enterprise-grade access control.

Education

Modern College of Arts, Science and Commerce, Shivajinagar 2025 – Present

Master of Science in Computer Science *Pune, Maharashtra*

Savitribai Phule Pune University June 2025

Bachelor of Science in Computer Science

Technical Skills

Languages: Java, Python, SQL, JavaScript, HTML/CSS, Node.js, C, Shell Scripting, LINUX

Backend & Frameworks: Spring Boot, Spring Security, REST APIs, MySQLi

Data Engineering: ETL pipeline design, Medallion Architecture (Bronze–Silver–Gold), data warehousing concepts

Databases: MySQL, MongoDB structured data modeling and query optimization

Cloud & Tools: Google Cloud (Cloud Run), Git/GitHub, VS Code, Jupyter Notebook, Power BI, Microsoft Excel, Bootstrap

AI & Emerging Tech: LLM Application Development, MCP, Chat-Groq API, Llama 3, AI Agent Orchestration, Streamlit

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly, React.js

Problem Solving: LeetCode (Arrays, Strings, Dynamic Programming, SQL)

Projects

Test Request Management System | ***Java, Spring Boot, MySQL, Bootstrap*** **June 2026**

- Replaced a manual, paper-based request process between the design and testing teams at Gabriel India Ltd with a complete online workflow, reducing average request response time.
- Built the system end-to-end using Java full stack Spring Boot backend, MySQL database, and Bootstrap frontend covering request creation, status tracking, and approvals.
- Gained hands-on understanding of backend development practices, including REST API design, database schema planning, and role-based access control.

Coffee Shop AI Agent | ***Python, Google Cloud Run, LLM Orchestration, Streamlit*** **September 2026**

- Built and deployed an **intelligent conversational agent** for a coffee shop ordering use case, developed as part of the Google Cloud Gen AI Academy APAC Edition (Cohort 3, Hack2skill).
- Designed the agent's orchestration logic and deployed it on **Google Cloud Run**, with a live, publicly accessible **Streamlit** front-end, demonstrating end-to-end ownership from design to cloud deployment.

AI-Powered Perfume Recommendation Engine | ***Python, MySQL, React.js, Llama 3*** **January 2025**

- Built an end-to-end pipeline (user input → **Llama 3 / Chat-Groq API** → MySQL retrieval → personalized response) with a **relational schema** and multi-factor preference logic.

Coursework, Simulations & Presentations

Google Cloud Gen AI Academy APAC – Cohort 3 | ***Google Cloud & Hack2skill*** **Sept 2026**
- Built, deployed, and orchestrated intelligent agents on Google Cloud Run.

Data Lakehouse & ETL/SQL Presentations | ***Technical Talks*** **2025**
- Presented Medallion (Bronze–Silver–Gold) architecture and delivered a hands-on SQL-based ETL workflow session.

Introduction to Data Engineering | ***IBM – Coursera*** **Oct 2024**
- ETL processes, data pipelines, and the modern data stack.

Python Essentials 1 | ***Cisco Networking Academy*** **Sept 2024**
- Data types, control flow, file handling, and automation.

Deloitte Data Analytics & Tata Data Visualization Simulations
- Forensic data analysis and data-driven problem-solving; built executive-ready dashboards for senior stakeholders.

Hobbies & Interests

Percussion: Tabla for 8+ years; passed **Madhyama Poorna** (Gandharva Mahavidyalaya). **Coding:** LeetCode (Arrays, Strings, DP, SQL). **Also:** Movies & Music.
